“Your order has shipped.”

The most comforting phrase when you are knee-deep in a crisis and desperately need IT products that will put your company back in business. ITSavvy has 1,000,000+ products warehoused in 46 locations around the country. We deliver. Fast.

All of that, and peace of mind, too.
Selection. Speed. We deliver both.

You need a single-source IT products partner with best-in-industry delivery stats. ITsavvy® is a value-added reseller with a strategically-positioned distribution network: clients in business, government and education are just 24 to 48 hours away from a delivery. In fact, 99% of our in-stock products ship the same day.

**On-staff experts.** We're real IT people, not just a boiler room of phones and monitors. Our Client Executives are backed by in-house pros who provide authentic advice when you need it.

**More products. Faster delivery.** Our distribution centers are the backbone of our operation. We stock more than a thousand brands with over $8 billion in daily inventory. We have a network of 46 distribution centers, so there's one near you. Check out the map. Our network yields topline delivery statistics.

Vendor neutral approach. Since we are independently owned, we do business with thousands of vendors. We work with the best-known manufacturers plus small-shop dealers for those rare, hard-to-find items. Our goal is to have what you need, when you need it.

International recognition. We have been honored by the industry year after year for our growth and success serving clients in business, healthcare, government and education. It is particularly rewarding to be considered exceptional within the highly competitive field of international IT products and solutions providers. We bring this award-winning client service and expertise to every engagement.
