MANAGED SERVICES

And your print fleet costs are...?

Mismatched and aging print devices. Ad hoc supply reordering. Chronic downtimes. If this sounds like your daily grind, you need some relief. savvyPrint managed print solutions can save costs and reduce headaches.

You'll get remote monitoring and management of your print fleet (including MFP technologies), supply auto-fulfillment, bundled savings and TCO visibility.

Say so long to your print nightmares.

Let savvyPrint lighten your load. We'll install monitoring on all of your devices and be alerted of any issues, often remediating them remotely. If onsite work is needed, we have a team of technicians who are certified on all of the leading brands and models, including MFP technologies.

Save on supplies with bundled auto-fulfillment that sends you only the items you need. Plus get a strategic view of your print operation for TCO oversight.

VETTED SUPPLIERS Auto-fulfillment and bundled purchasing allows you to get higher quality products for lower costs.

USAGE ASSESSMENT Streamline your operation with comprehensive analytics that match how your enterprise uses print with the most optimal, not the most expensive, solutions.

ACCURATE REMEDIATION One call services all devices, from a US-based team certified on Samsung, HP, Lexmark, Toshiba, and Xerox, and highly-trained on Canon, with specialties in MFP technologies.

TCO OVERSIGHT Make print a strategic line item, with reduced capital outlays, contract monitoring and lease options that make sophisticated technologies affordable.

CUSTOMIZED REPORTS Usage, service and green reports available through the client portal to satisfy compliance, planning and budgeting needs.

Who is ITsavvy? We are, of course.

ARE YOU SPENDING TOO MUCH ON PRINT? Contact an ITsavvy Client Executive for a usage assessment that can optimize your fleet, your time and your budget.
