Help Get You
There!

 Office 365

Everybody's moving up to Office 365. And many will reap great benefits.

But, for many more organizations, moving to Office 365 can open up a host of problems. They're the businesses that lack the know-how and experience to make the move successfully. They don't have, or haven't engaged, the expertise needed to move, manage and maintain Office 365.

ITsavvy Microsoft Office 365 Cloud Solutions is ready to move with you. Let us eliminate the risks, speed up the process, carry the burdens and avoid the hazards of moving from your existing on-premise solutions to Microsoft Office 365.

Microsoft Office 365 Cloud Solutions

Office 365

The Fastest Path to Office Productivity and More

Running Microsoft office, collaboration and communications solutions in the cloud brings a lean, efficient and simplified platform to your workloads. That's true whether you're running the basic office solutions, enhancing them with a range of tools that facilitate communication and teamwork, or moving entire workloads onto the Azure platform.

The Benefits of ITsavvy Microsoft Office 365

Here are just a few of the reasons why you should be headed to Microsoft O365.

DECREASED COSTS Purchase only the number of licenses you need, with no minimum, through the self-service portal.

ELASTICITY Scale up or down for cyclical shifts, expansion or downsizing.

SELF SERVICE PORTAL Purchase new licenses, upgrade your existing services—and more—directly from our portal.

FAST SUPPORT Take advantage of support plans with elevated response times. If the issue needs escalation, you'll get high-priority access to Microsoft technicians through ITsavvy.

ASSURED COMPLIANCE Be certain that your cloud workloads will meet all compliance and regulation standards.

METHODOLOGY Custom-fit to your environment and encompasses cutover, staged or hybrid migration strategies.

SIMPLIFICATION Cloud and IT services coordinated (and invoiced) from a single provider who understands your business's needs.

FULL PORTFOLIO All of Microsoft's CSP portfolio instantly available through your ITsavvy portal.

24/7 365 SERVICE AND SUPPORT DESK Tier 1 user support and Tier 1 and 2 administration support any time you need it. This includes user enablement and training.

FASTEST TIME TO SOLUTION Expertise and experience allow us to get you up, running, and secure as fast as possible.

CUSTOM SUPPORT Build a support program that retains control of what you want to control, and hand off the rest to ITsavvy.

MIGRATION SERVICES

ITsavvy's Microsoft Office 365 Migration Services team plans, executes, tests, and supports the migration of your existing Exchange or other on-premises systems to Office 365.

LICENSING FULFILLMENT SERVICES

Once onboarded (we help with onboarding too), you can procure newly launched products, product updates—and more—upon release directly through ITsavvy. This lets you apply our discounts to licenses and consolidates all your Microsoft product licenses into a single, monthly invoice.

SECURITY AND DATA PROTECTION SERVICES

Let us protect and secure your email and collaboration workloads, ensure the protection of your data, and help you remain in compliance with all regulations and industry requirements.

ITsavvy ENABLEMENT/SUPPORT SERVICES

We help you every step of the way, from day one until your next infrastructure transformation. That includes helping you make the right choices from the confusing Microsoft license tiers, continually monitoring the health of your environment, and complete training and support.

MICROSOFT AZURE

There are right ways and wrong ways to move workloads to Azure. We can help you find the right path and avoid the pitfalls. This includes analyzing what Azure resources you'll need per workload, ensuring you don't undersubscribe or oversubscribe, thereby safeguarding your environment.

Who is ITsavvy? We are, of course.

READY TO MOVE? Contact an ITsavvy Client Executive to learn how easy we'll make the complex process of moving up to Office 365.
