

ITsavvy Configuration Lab

ENGINEERED SOLUTIONS

The **ITsavvy**
Configuration
Lab Brings Your
Technologies
Together.

Buying hardware and software technologies from *anyone* is always just Step One. Once you've selected the hardware and software, the hard part begins: making everything work the way you need it to work.

And that's where ITsavvy outshines *everyone*. The ITsavvy Configuration Lab configures, installs, tests and packages every hardware and software component to your precise and exacting requirements. On time. On budget. And completely to spec.

ITsavvy > Configuration Lab

A Full Service Set Across All Technologies.

SIMPLE ORDERING Our easy ordering and confirmation makes purchasing a self-service breeze. And, of course, our team is ready to help you every step of the way.

HARDWARE CONFIGURATIONS ITsavvy will configure and install all hardware, from the thinnest client to the largest server farms.

SOFTWARE CONFIGURATIONS We'll configure any software mix you need and then create images for laptops, desktops, thin clients, tablets and Apple & Android devices.

QUALITY CONTROL For every order, we impose four-phase quality control. Everything is inspected before installation begins. Each completed unit is then inspected by, first, the lab technician and then the lab supervisor. Finally, a last full check-out occurs right before shipment.

ASSET MANAGEMENT Before we ship, we'll create customized kitting that you define, and put customized tags (with your logo) on each asset. We'll palletize and inspect your order, and then deliver it when and where you want.

Who is ITsavvy? We are, of course.

CURIOS? Contact an ITsavvy Client Executive to learn how easy we'll make the complex process of implementing new technologies across your business.

THE ITsavvy DIFFERENCE

Fully Certified Technicians and Supervisors

Our lab teams are certified on the technologies of every leading manufacturer of compute-store-network equipment.

Great Prices

Go ahead and compare our prices with any competitor. You'll like our numbers.

Everything Is Custom

We build each installation and each kit according to your nth-detail specifications. Nothing generic arrives at your door.

Our Model Is Your Model

We'll adjust the way we do business to match the way you do business.

Millions Of Products

More than two million in fact. And that includes popular technologies, hard-to-resource products, and our own in-house solutions.

Satisfaction Guaranteed.

We stand by every cable and app we install. If anything we deliver is not point-by-point perfect we'll make it right, right away.
